

200 Mold, (Odor & Bacteria) Related Illnesses & Health Complaints, both Medical & Anecdotal

Air Restoration Technology, Inc. uses the newest technology that eradicates Mold and Odors in about a day, Guaranteed, or it's free! Our one-of-a-kind air sanitization process break down the oxygen molecule (so it is green), plus it helps 200 health issues!

Alphabetic Index

A

- *A. fumigatus*, growing in bronchi
- abdominal pain
- abnormal pap smears
- acid reflux
- acne
- acute pulmonary hemorrhage
- airway inflammation
- aggravated existing allergic asthma
- aggravated existing allergic rhinitis
- allergy symptoms (wide variety of)
- Allergic bronchiopulmonary Aspergillosis
- Allergic Rhinitis and asthma are associated with responses mediated by immunoglobulin E (IgE)
- altered immunity
- anaphylaxis
- anxiety
- apnea, sleep
- Aspergilloma (fungal growth in lung), cough, coughing up blood, weight loss
- Aspergillosis
- asthma and asthmatic signs, adult onset, sudden onset, any age

B

- asthma, increased symptoms or renewal of previously diminished symptoms
- Asthma due to fungal allergens - Cx typically occur within 1 hr of exposure
- balance, loss of
- bladder and kidney pain
- Blastomycosis
- bleeding lungs
- bloating
- blood pressure irregularities
- bone pain
- body aches and muscle pains
- boils on skin, especially following disturbance of moldy materials (*S. chartarum*)
- breath holding
- breathing difficulties
- Bronchopulmonary aspergillosis
- building-related illness (BRI)
- bruising easily
- burning and abnormal discharge
- burning mouth
- burning eyes
- burning sensation on the skin
- burning throat
- burning lungs

C

- cancer

- candida, systemic
- candida vaginitis
- Candidiasis
- central nervous system symptom disruptions
- chest tightness
- chest tightness
- chills
- Chromoblastomycosis
- Chronic Candidiasis FAQ - see Dr. Fungus: doctorfungus.org/mycoses/human/candida/Chronic_Candidiasis.htm
- central nervous system disorders (CNS)
- chest pain associated with excessive coughing
- chills
- choking
- cholesterol or triglycerides unusual variations
- chronic fatigue syndrome (CFS)
- Chronic hypersensitivity pneumonitis
- chronic obstructive pulmonary disease
- chronic sinus infections
- coated tongue
- coccidioidomycosis
- colds, recurrent
- constipation

- contaminated bird droppings effects
- COPD
- Cough from nasal drainage
- cough, dry hacking
- coughing up blood
- cryptococcosis
- Cryptococcosis of Cats
- Cumulative exposure
- cystic fibrosis
- cytotoxic

D

- dandruff resistant to usual treatments
- dark urine
- death in infants
- death (humans, other animals)
- decreased resistance
- depression
- Dermatitis: red, itchy skin, rashes
- diarrhea
- difficulty breathing
- difficulty concentrating
- difficulty in swallowing
- dirt-like taste in mouth
- disorientation
- disruption of cell membranes
- dizziness
- dyspnea

E

- endometriosis
- episodic dyspnea
- exposure to airborne 13-beta-D-glucan
- Extrinsic Allergic Alveolitis
- eye infections
- eye irritation

F

- face flushing intermittent

- facial movements, unexplained twitching
- farmers' lung disease
- Fatigue
- feeling of discomfort
- fevers
- fibers in nasal secretions
- fibers in skin
- fibrous discharge from the nose, nasal fibers, mucosa
- fibromyalgia
- flu-like symptoms
- food allergies
- frequent bloody noses
- frequent infections
- fungal disease
- fungal eye infections
- fungal infections
- fungus

G

- gastrointestina
- Glucan sensitivity
- green nasal discharge
- green slime

H

- hair loss
- headaches
- heart attack
- heartburn
- hemorrhagic pneumonitis
- heartburn
- high levels organic chemicals
- histoplasmosis
- hives
- hot flashes
- Hypersensitivity Pneumonitis

- hypersensitivity to airborne allergens or house dust
- hypersensitivity to mold
- hypersensitivity pneumonitis

I

- immune system deterioration
- immune related illnesses
- immunocompromised patients
- immunologic response
- inability to concentrate
- increased irritability
- indigestion
- infertility
- inflammatory disease
- inhalation of fungal parts
- interstitial pneumonitis
- invasive pulmonary aspergillosis
- irritability
- irritation
- irritant effects
- irritation symptoms
- irritable bowel syndrome
- itching eye
- itching mouth
- itching nose
- itching skin

J

- judgment

K

- kidney pain and failure

L

- learning difficulties
- leaky gut syndrome
- lethargy after sleep
- liver pain
- Lobomycosis
- long lasting flu-like symptoms

- loss of ability to concentrate
- loss of ability to make decisions
- loss of ability to think clearly
- loss of strength
- loss of vision

M

- memory deficits
- memory loss
- menopause, unanticipated onset
- menstrual abnormalities
- menstrual irregularities
- metallic taste in mouth
- migraine headaches
- mold-triggered asthma attacks
- mood swings, sudden
- Morgellon's syndrome
- Morgellon's disease
- mucous
- mucous accumulation on back of the throat
- multiple chemical sensitivity (MCS)
- muscle aches
- Mycetoma
- mycosis
- mycotoxicosis
- mycotoxins
- Mycotoxins

N

- Nail, Hair, and Skin disease
- nasal congestion
- nasal discharge
- nausea
- neck boils
- night sweats and hot flashes
- nose irritation
- nosebleeds
- numbness in face and limb

O

- odors, increased sensitivity
- Onychomycosis
- open skin sores and lacerations
- open sores on head
- organic dust toxic syndrome
- Otomycosis

P

- Paracoccidiomycosis
- peripheral nervous system effects
- personality changes
- pets, sudden odd behavior, aggressiveness, disorientation, running in circles, stumbling, falling, respiratory disorder, sudden death, including death of pets due to pulmonary hemorrhaging [area of ongoing research by DJF - web author] See: circling disease in sheep.
- pets, Cryptococcosis of Cats
- Phaeohyphomycosis
- Piedra
- Pityriasis versicolor
- poor appetite
- progressive dyspnea
- puffy or droopy eyes
- pulmonary fibrosis
- pulmonary infiltrates
- Pulmonary hemorrhaging
- Pungent odors may initiate avoidance reactions

QR

- rashes
- redness of eyes
- Respiratory allergy
- respiratory disorders

- respiratory distress
- rhinitis
- Rhinosporidiosis
- ringing in ears
- round rash spots
- runny nose

S

- S. chartarum
- scalp particles
- scalp scrapings
- seizures
- severe premenstrual tension
- shaking
- SIDS
- significant human illness
- sinus headache
- skin lesions
- smells, increased sensitivity to
- spleen pain
- shortness of breath
- sinus congestion
- sinusitis, chronic
- skin rashes or irritation
- skin redness
- sleep disorders
- slurred speech
- sneezing
- sneezing fits
- spitting up mucous
- Sporotrichosis
- *Stachybotrys chartarum* (large sticky spore attaching)
- swollen glands
- swollen lymph nodes
- symptoms of pruritus
- Syndromes, mold-related

T

- synthesis interference of protein, RNA, and DNA
- Systemic candida infection
- T2
- Throat irritation
- Tightness in the chest
- Tinea
- Tinea barbae
- Tinea capitis
- Tinea corporis
- Tinea cruris
- Tinea favosa
- Tinea nigra
- Tinea pedi

U

- Tinea unguium
- Tremors
- Trichothecene poisoning
- trouble in speaking
- undiagnosed fungal eye infections
- unexplained fevers
- upper respiratory symptoms
- urinary tract infection (UTI)

V

- vaginal infections
- vaginal yeast infections
- verbal dysfunction
- vertigo
- VOC sensitivity

WXYZ

- volatile organic chemicals
- vomiting
- vomiting mucous
- weakness
- weight gain
- weight loss
- wheezing
- wheezing breath
- women's health problems
- worsened acne
- yeast infections
- Yellow rain
- Zygomycosis
